

Dear Parent/Carer

As a school and a community we have for some time been concerned about our impact on the environment. We believe that the sooner our children are educated on better environmental practices, the easier it will be to make it a part of everyday life.

Ecosnackwrap, UK distributors of 4MyEarth wraps and pockets, offer a unique lunch-box solution that will help reduce the impact on the environment from cling film/tin foil or plastic bags. Developed in Australia the wraps and pockets are a safe, non-toxic product that keeps food fresh and can be used again and again by simply washing and re-using. With an easy-to-use velcro fastening, they fold flat for practical storage, making them perfect for packed-lunches for children and adults alike.

There is a wrap or product to suit everybody as they come in a variety of styles, sizes and designs. A sample pack and full colour catalogue are on display in reception or check out Ecosnackwrap's website on [ecosnackwrap.co.uk](http://ecosnackwrap.co.uk). And for every order, ecosnackwrap will donate a percentage (minimum 15%) of sales to the school.

Ecosnackwrap have calculated a rough guide as to how much a child would use in plastic wrap based on a sandwich, muffin and sultanas in their lunch box every day for a year. We worked out it would be 105 metres of plastic wrap that would be dumped into our ever-increasing landfill per child! Make a difference and complete the order form today!
